"Do we believe and constantly insist that cooperation among the peoples of the world is necessary in order to bring about peace? If so, what is needed first of all is collaboration with children....All our efforts will come to nothing until we remedy the great injustice done the child, and remedy it by cooperating with him. If we are among the men of good will who yearn for peace, we must lay the foundation for peace ourselves, by working for the social world of the child."

~Dr. Montessori

This week adults gathered in many circles to better prepare the environment for the Child. The adult is part of the prepared environment that supports the growth and development of all our children. Thus it is important to gather as adults to better prepare ourselves to offer our best selves to the Child each day.

The Violeta Adult Community gathered to discuss addition in the math materials and how a Bilingual Montessori Elementary School in East Cambridge might better serve our children. The Violeta Teaching Team gathered to discuss our bilingual environment and how to support each other. The Pod and WF Network gathered to offer support around administrative roles.

Preparing the environment for the Child begins with the preparation of the adult. Each adult must tend to their self-care preparation including mental/physical/emotional wellness to bring their best selves before the Child each day!

A walk in the park!

Decimal System work to add blueberries!

"There is no description, no image in any book that is capable of replacing the sight of real trees, and all of the life to be found around them in a real forest." ~Dr. Montessori
